Forward-looking Statements

Certain statements contained in this release are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include all statements that are not historical facts. These forward-looking statements reflect Cavco's current expectations and projections with respect to our expected future business and financial performance, including, among other things: (i) our expected financial performance and operating results, such as revenue and gross margin percentage; (ii) our liquidity and financial resources; (iii) Cavco's business and industry outlook; (iv) the expected effect of certain risks and uncertainties on our business; and (v) the strength of Cavco's business model. These statements may be preceded by, followed by, or include the words "aim," "anticipate," "believe," "estimate," "expect," "forecast," "future," "goal," "intend," "likely," "outlook," "plan," "potential," "project," "seek," "target," "can," "could," "may," "should," "would," "will," the negatives thereof and other words and terms of similar meaning. A number of factors could cause actual results or outcomes to differ materially from those indicated by these forward-looking statements. These factors include, among other factors, Cavco's ability to manage: (i) customer demand and the availability of financing for our products; (ii) labor shortages and the pricing, availability, or transportation of raw materials; (iii) the impact of local or national emergencies; (iv) excessive health and safety incidents or warranty and construction claims; (v) increases in cancellations of home sales; (vi) information technology failures or cyber incidents; (vii) our ability to maintain the security of personally identifiable information of our customers, (viii) compliance with the numerous laws and regulations applicable to our business, including state, federal, and foreign laws relating manufactured housing, privacy, the internet, and accounting matters; (ix) successful defense against litigation, government inquiries, and investigations, and (x) other risks and uncertainties indicated from time to time in documents filed or to be filed with the Securities and Exchange Commission (the "SEC") by Cavco. The forward-looking statements herein represent the judgment of Cavco as of the date of this release and Cavco disclaims any intent or obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments, or otherwise. This release should be read in conjunction with the information included in our other press releases, reports, and other filings with the SEC. Readers are specifically referred to the Risk Factors described in Item 1A of Cavco's Annual Report on Form 10-K for the year ended March 28, 2026 as may be updated from time to time in future filings on Form 10-Q and other reports we file pursuant to the Securities Exchange Act of 1934, which identify important risks that could cause actual results to differ from those contained in the forward-looking statements. Understanding the information contained in these filings is important in order to fully understand Cavco's reported financial results and our business outlook for future periods.

Community Impact Project of the Year

The Affordable Housing Crisis

“...(in) no market in this country can a homebuilder build a house that is affordable for a first-time home buyer.” National Association of Home Builders CEO, Jerry Howard

FEBRUARY 24, 2026

In 39 states and the District of Columbia, more than 65% of households are unable to afford the median-priced new home, indicating a significant disconnect between higher new home prices, elevated mortgage rates, and stagnant household incomes.

MARCH 4, 2026

The biggest problem with the American housing market is a lack of supply.

21st Century ROAD to Housing Act

Key manufactured housing provisions enacted into law

Allows qualifying manufactured homes to be built without a permanent chassis

Modernizes FHA financing

Directs federal regulators to study small-dollar mortgage barriers

Exempts manufactured homes from restrictions aimed at large institutional investors

Streamlines permitting and environmental reviews

“Congress approving the 21st Century ROAD to Housing Act is one of the most significant housing policy developments affecting manufactured housing in years. For the first time, Congress has explicitly recognized manufactured housing as part of the nation's housing supply solution. When policymakers recognize manufactured housing as a legitimate and necessary part of addressing housing affordability, it creates a foundation for future progress.” – Bill Boor, President and CEO, Cavco

More affordable housing options.

Chassis-free designs can fit communities where manufactured homes were previously harder to place.

Potentially easier financing.

Updated FHA loan limits and a study of lending barriers are designed to help more buyers qualify.

Preserves investment in affordable housing

By exempting manufactured housing from restrictions, the Act preserves access to capital that supports the development and expansion of affordable housing options.

Possibility of faster, less costly approvals.

Streamlined permitting and pre-approved building plans reduce time and expense before construction begins.

Corporate Responsibility

Continuous commitment to a positive impact on people, communities and the environment

Our People – ONECavco

**20%
Increase**

in healthcare enrollment for employees and their families as a result of increased company investment

**Reduced
30-Day
Attrition**

Spark, an onboarding program, reduced 30-day attrition from 25–45% at participating locations

Training and development programs help employees grow to their full potential. Cavco recognized as one of the top 105 training organizations in the world with our “Master of Craft” program.

Our CAVCommunity

Homes for our Own provides education with potential for financial assistance for employees to make their dreams of home ownership come true

Our Emlenton manufacturing team partners with Habitat for Humanity to build modular homes and donate building supplies, significantly boosting Habitat’s ability to provide quality homes to families in need.

Environmental Impact

Minimizing our environmental impact throughout the entire manufacturing cycle

Our Approach

Reduce waste + Preserve natural resources
+ Increase use of recycled materials =
Reduction in costs **and** carbon footprint

Recycling

- Align recycling efforts with area experts, as each geographical area often has different environmental and recycling standards
- Partner with vendors who share our values — recycling scrap metal, used pallets, baled cardboard, vinyl siding and wood refuse

Green Energy

Solar panels supply **~50% of electricity** in our Glendale, AZ, plant, **reducing our carbon footprint by ~1,642 metric tons** annually

Newest solar array at our Emlenton facility will supply **~35% of electricity**, the equivalent of **~148 metric tons** of carbon dioxide annually

2,100
acres

Greenhouse gas emissions will be reduced by the equivalent of adding ~2,100 acres of forest to sequester carbon dioxide

Additional renewable energy opportunities for our other building facilities are under evaluation

Manufactured Industry Drivers

**Better value
than site-built**

**Environmental
advantages**

Demand Drivers

6M
Unit Deficit

Long-term undersupply has led to an approximate 6-million-unit deficit

Buyers from large and diverse markets (first-time home buyers, first-time move-up buyers, baby boomers, empty nesters and retirees) recognizing advantages of quality factory-built homes

Community operators expanding quickly; addressing rental market demand

Zoning improvements and product innovation will open new markets, such as urban locations

Manufactured Housing Industry

33 companies with **147** homebuilding factories

**For 12 Mo.
Ended
June 2026**

Only **19%** of new site-built homes sold were under \$300,000 when nearly **100%** of manufactured houses sold were under that amount

Manufactured housing represents 5% of all occupied housing with **17M Residents**

Park Model

Smaller homes often placed in hospitality settings

Multi-family/Commercial

A factory-built structure for dormitories, apartments, hotels, etc.

Distribution Channels

Diverse channels provide a broader network for home sales growth

Retail

Company-owned and independent retailers work directly with end customer to customize a home to suit their needs

Builder/Developer

Consistent, robust channel, which includes hospitality and destination/glamping developments

Communities

Capitalize on channel diversification in a growing market, which includes active adult lifestyle communities

Financial Strategy

Proven ability to deliver organic growth, capacity expansion and shareholder value

Strong track record of growth, cost management, strong free cash flow generation and operational excellence

Capital Deployment

In the past two years (Q2'25-Q1'27), Cavco has committed:

\$310M of share repurchases

\$172M for strategic acquisition of American Homestar

\$77M for internal capital improvement projects

Balance Sheet Management

\$266M

cash as of Q1'27

Zero

corporate debt*

* Undrawn \$75 million credit facility available

MACRO ENVIRONMENT

Despite economic cycles, Cavco will thrive because of:

- Low price point
- No land cost or risk
- Variable cost structure
- Controlled manufacturing environment
